Nicotine

Flavorings

# e-liquid flavors were available online as of a 2017 study.

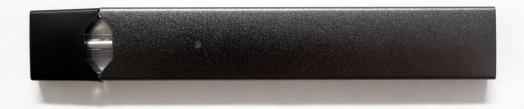

## What does e-cigarette aerosol smell like?

#### Pax JUUL

## Suorin Drop

Suorin Air

## Resemble common student items

# Compact and easy to hide

# High nicotine content

#### 4 JUULpod cartridges\* mango 5% strength

\*1 JUULpod contains ~ 0.7mL with 5% nicotine by weight // approximately equivalent to about 1 pack of cigarettes

#### Ingredients

glycerol, propylene glycol, flavor, nicotine, benzoic acid

#### www.JUULvapor.com

Designed in San Francisco, CA

#### ©2017 JUUL Labs, Inc.

Protected by issued and/or pending US and international patents: www.juulvapor.com/intellectual-property-list

#### CALIFORNIA PROPOSITION 65 WARNING:

This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. This mango JUUL pod contains as much nicotine as a pack of cigarettes.

Health Risks

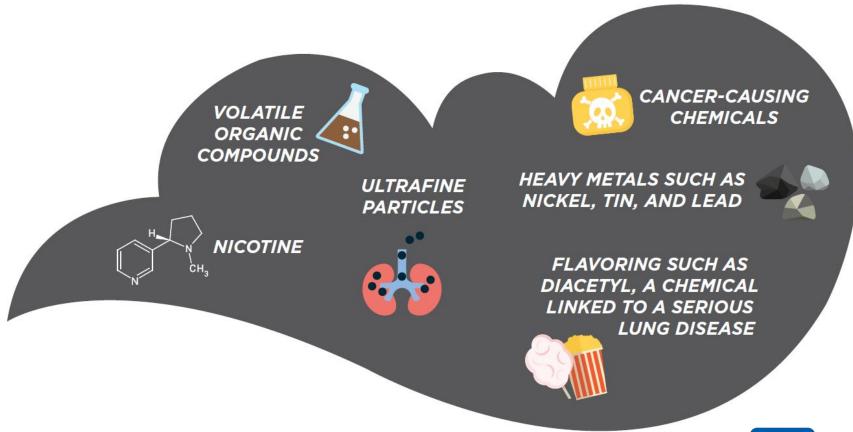

Teen brains are strongly affected by nicotine. It can negatively affect **memory and attention** and is linked with **depression**.

A recent study found that youth who reported e-cigarette use were **three times as likely** to begin smoking cigarettes.

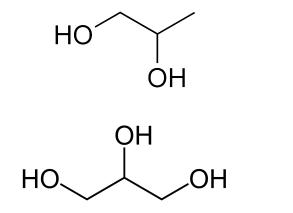

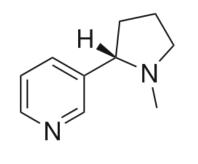

E-cigarette aerosol often contains heavy metals and carcinogens like formaldehyde, though in lower levels than conventional cigarettes.

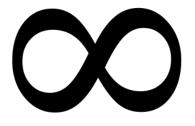

#### E-Liquid Ingredients

Propylene Glycol or Vegetable Glycerin

Nicotine

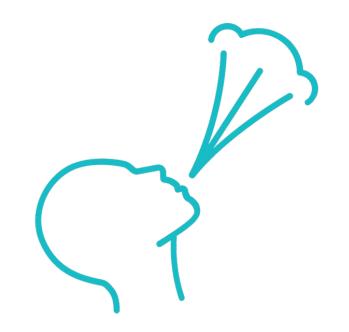

Flavorings

#### Passive (Secondhand) Vaping

Studies have found **nicotine**, **formaldehyde**, **aluminum** and other particles in sidestream aerosol.

One study found e-cigarettes released **more nickel and silver** than cigarettes.

Children, pregnant women and those with health conditions should avoid exposure.

# Talking With Teens:

Vaping Risks

- Focus on brain development
- Less terrible ≠ safe
- What goes in  $\neq$  what comes out
- Acknowledge exceptions

## What Do You Say?

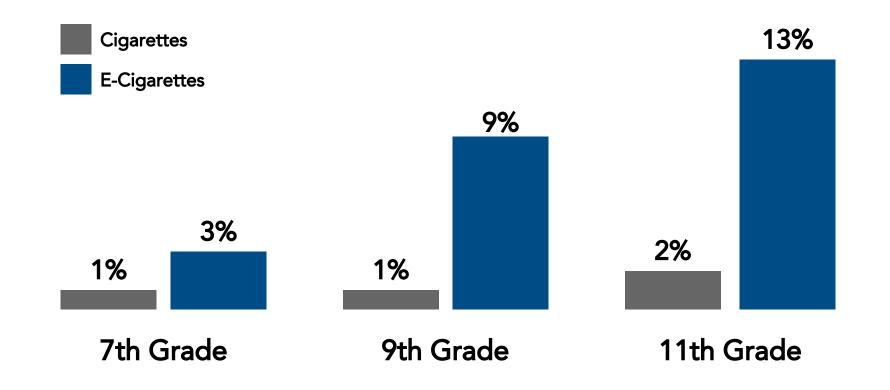

Your child sees their older cousin vaping in the backyard during a family party.

### Extra Hints

Discuss family pressure and separating the behavior from the person

Extend the scope of the conversation to school and friends

#### Cigarette vs E-Cigarette Use: Orange County

Among students reporting current **e-cigarette** use...

70% report drinking alcohol55% report using marijuana25% report smoking cigarettes

#### What About the FDA?

A regulation and approval process for e-cigarettes is scheduled to begin on **August 8, 2022.** 

The FDA is working to restrict **online sales** of e-cigarettes and the sale of **sweet-flavored products**.

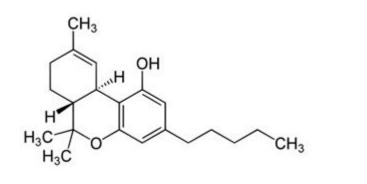

# August 8, 2022

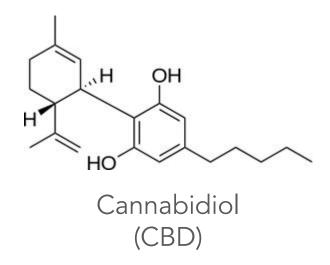

## Hash Oil

### Key Ingredients

# Phytocannabinoids (~85 known) activate receptors throughout the brain and body.

Tetrahydrocannabinol (THC)

# Hash Oil (a.k.a. wax, BHO, dabs)

Chemically-extracted concentrates of THC and sometimes other components of marijuana.

Wax

Shatter

#### Crumble

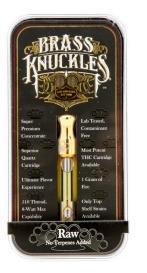

#### Sauce

#### THC E-Liquid

Dab on Coil

#### Preloaded Cartridge

#### Hash Oil Cig-a-likes

PAX Era

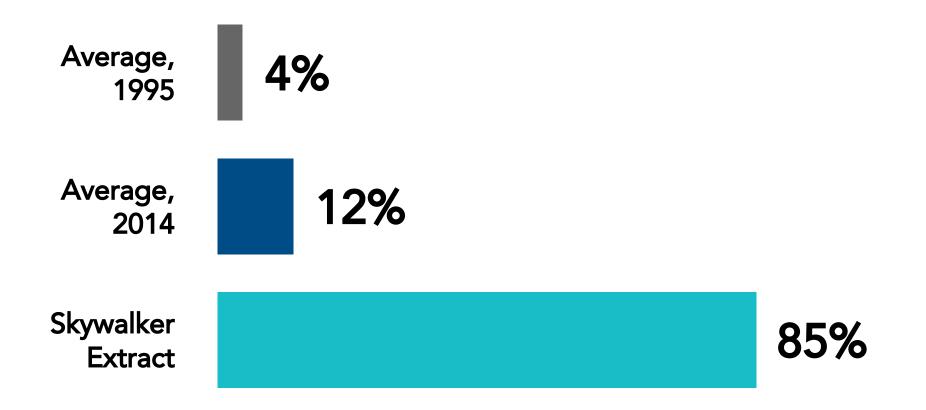

J Pods

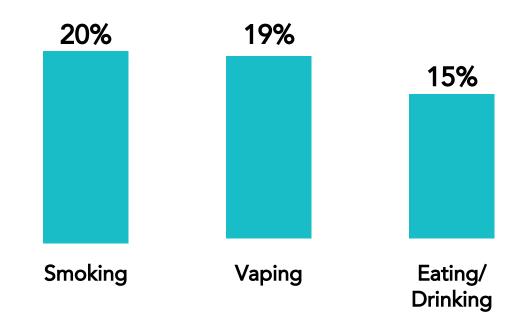

Hempod

Hi-Pod

#### **THC Levels Comparison**

#### 11th Graders: Marijuana Use In Lifetime

Marijuana affects the parts of the brain that work on **learning, memory and attention** and is linked to **anxiety, depression** and even **schizophrenia**.

Using marijuana and driving can **increase the risk of a crash.** Combining with alcohol worsens the risk.

While only 9% of users become dependent, the risk **nearly doubles (17%)** for those who start as teens.

# Talking With Teens:

## Marijuana Risks

- Focus on brain development
- High risk: using early and often
- Acknowledge exceptions

## What Do You Say?

Your child says their friend was vaping marijuana at school and offered it to them.

## Extra Hints

Promote open and calm communication

Discuss friendship and peer pressure, refusal skills and escape plans

Know your child's friends (and their parents)

## E-CIGARETTES DON'T HAVE TOBACCO. GUESS WHAT THEY DO HAVE.
